“ Their technical expertise allows them to provide a strong plan, design, strategy, and implementation process for our projects.”

—Global Pharmaceutical Company

Data Networking

Move away from traditional enterprise networks to intent-based networks with the power of machine learning and automation to establish a network that meets your business needs and enforces your business policies. New Era's data networking solutions give you the secure, high-speed connectivity that empowers your team to work faster and more efficiently.

Solutions

- Network Infrastructure
- Data Center
- Wireless
- Structured Cabling & Fiber Optics
- Smart Building
- Security & Access

Physical Security & Life Safety

We recognize the importance of keeping your staff, clients, and property safe. New Era brings together a diverse array of state-of-the-art security solutions to ensure the safety of your environment. We take a holistic approach when reviewing potential threats to determine the best solutions for your business.

Solutions

- Intrusion Detection
- Access Control
- Patient Safety
- Fire Alarm
- Mass Notification
- Video Surveillance

Services

CloudBlu

CloudBlu, New Era's "As a Service" portfolio of cloud solutions makes it easy to migrate technology and applications to the cloud and offload much of the hardware and power demands that come with maintaining a network. We deliver the benefits of industry-leading technology, outstanding service level agreements, and predictable operation costs.

Services

- Contact Center
- Teams Direct Routing
- Unified Communications
- SIP
- Vulnerability Assessment
- Backup
- Disaster Recovery
- Digital Signage
- Wireless
- Software
- Infrastructure
- Video Surveillance

Digital Transformation Services

New Era leverages data insights, experience design, and technology solutions to reimagine how you connect with your customers. Our people-centered approach leverages digital strategies, tools, and tactics to transform the way you engage with your customers.

Services

- Customer Experience Consulting
- Web & Mobile Development
- Data Management, Integration, Architecture, & Analytics
- Cloud Strategy, Development, and Infrastructure

Security Services

New Era's SecureBlu services offers a range of highly scalable security services built around market-leading security products and platforms, backed by strong alliances and partnerships with market leading vendors and staffed by a highly trained and dedicated team of security practitioners and subject matter experts. New Era's security practice offers has a global footprint with highly customizable local support models to meet the most diverse business needs.

Services

- Security Advisory
- Managed Security Infrastructure
- Managed Detection & Response (MDR)

Managed Services

Increase the overall efficiency of your IT department and maintain stable and reliable systems with New Era's Managed Services. You'll gain access to experienced support technicians and engineers when you need them, for a fraction of what it would cost to expand your team.

Services

- IT
- Audio Visual
- Unified Communications
- Network Security
- On-Site Support

Professional Services

When you choose New Era's professional services you gain a team of dedicated consultants and integrators to help implement new technologies, business applications, and policies, using a proven framework to ensure customer satisfaction.

Services

- Consulting
- Design, Deployment, & Integration
- Lifecycle Maintenance
- Programmability & Automation
- Project Management
- Technology Assessments
- Workforce and Staff Augmentation
